Annual Report by the Inspector General of Registration in Mysore for 1879—80.

No. 2536—J. 46, DATED BANGALORE, 13TH JULY 1880.

REVIEW BY THE CHIEF COMMISSIONER.—The total number of registrations again shews a decrease and again the proportionally greatest decrease is in documents affecting immovable property of less than 100 rupees value, the registration of which is optional. The Inspector General says that the decrease in the number of this class would probably have been greater had it not been for the reduction of fee for those of Rs. 50 and lower value; but the returns do not exhibit documents of that value separately, except as contrasted with the year 1876—77 over which the past year shews an increase in all classes.

2. The total number of registrations was 14,577; there were 9,532 affecting immovable property each over 100 rupees in value, 4,566 affecting immovable properties of less than 100 rupees each and 479 affecting movable property. The latter is the highest number attained in any year except 1875—76, and it appears that the reduction of fees for such registrations has the desired effect of increasing their number.

3. Decrease in business done as compared with the previous year is due to the abnormal condition of the two preceding years, and the growing popularity of registration is exemplified by the comparison given between the business done by the Department in 1869—70 with that in 1879—80 as well as by the summary statement given as an appendix to the report, and that this is encouraged by the new scale of fees is seen by the facts that though the number of documents affecting movable property increased, their value fell from Rs. 2,11,719 to Rs. 1,67,476, giving a smaller average value, and the percentage of fees on the value of property affected by these increased from 7 as. 10 p. to 10 as. 5 p, while the average registration fee per document fell from Rs. 1-1-6 to 15 as. 2 p.

4. Abolition of Peshkars and changes in Munsiffs' Courts led to the abolition of seven offices and in three instances special Sub-Registrars have been appointed in place of Amildars and Shcristadars, and so far as can yet be judged, the results are very good.

5. Departmental receipts were Rs. 38,388 against Rs. 39,783, a decrease due to fewer registrations. Expenditure was also reduced from Rs. 25,336 to Rs. 24,444, the effect of the substitution of a special paid Sub-Registrar for the Bangalore Taluk in place of the Sub-Registrar paid by fees; for though, in consequence, the expenditure on salaries of establishments was increased, the outlay on commission was more than proportionally curtailed, and the total reduction of expenditure being exactly proportioned to the decrease in income the percentage of expenditure on income is again 63·68 as in the previous year.

Annual Report on the Jail Administration in Mysore for 1879 by the Inspector General of Prisons.

No. 2537—J. 47, DATED BANGALORE, 13TH JULY 1880.

REVIEW BY THE CHIEF COMMISSIONER.—The general reduction in the number of prisoners throughout the Province has relieved the pressure on existing accommodation and it is reported that in 1879 there was enough room ; this result has been assisted by enlarging the temporary Jail at Kukarhalli near Mysore, to which large drafts were made during the year in order to employ the convicts on the Mysore water works, and where an average daily strength of 611·5 convicts was maintained.

2. The number of civil debtors imprisoned rose a little, but their total is very insignificant and the very great decrease in under-trial and convicted prisoners reduced the total daily average of the three kinds of prisoners from 5,330 to 3,247. This is the result, of course, of a continued diminution of crime in consequence of which the number of under-trial prisoners was 5,227 in place of 12,820 in 1878, their daily average was 130 instead of 427. The supply being happily cut short, and the convicts being gradually released as their sentences expired, the reduction in numbers went on during the year, and at its close there were only 2,772 convicts remaining ; nearly 1,000 less than the number on the first day of the year and about 300 under the daily average, which, amounting to 3,096, compares very favorably with the 4,885 of 1878.

3. Nor has the diminution in the number of convicts been largely affected by the release of men before the expiration of the full term of sentence, as was the case in 1878 ; there were only 128 released during the year on account of good behaviour and having regard to the circumstances of the times which led to their crime.

4. Deducting from the total number of convicts left upon the last day of the year, the number of those sentenced to death or transportation, it is found that of the remainder, all of whom were undergoing sentences of imprisonment, just one-half were sentenced to imprisonment for two years and upwards.

5. Again, this year it seems that the recommittals have increased. The proportion of old offenders among the convicts received during the year was 5·1 per cent ; and, of the convicts who remained at the end of 1878, 9·4 per cent had been previously convicted. The highest proportion was displayed among the convicts received in the Central Jail at Bangalore in explanation of which the Superintendent says that habitual crime is very prevalent, or these men are very readily captured by the Police; there is much truth in this ; but the large number of women among the old offenders suggests another reason, that the returns of this class of convict are swelled by the working in Bangalore of a special and local law which principally concerns women of the town.

6. Special rules were passed during the year for the appointment and reward, by remission of sentence and grant of small gratuities, of convicts as warders and work overseers ; the rewards being allotted under what is known as the 'mark system'. These rules had only been in force during the last quarter of the year, and the practical experience gained of their working was scarcely sufficient to afford means of judging their success.

7. The total cost of maintaining and guarding the prisoners has decreased with their decreasing numbers and in consequence of cheapening food from Rs. 4,39,935 to Rs. 2,62,472, which is but half the cost of jail administration in the Province two years ago. The average per head is also less than in 1878, being Rs. 80—13—3, though in the items of establishment and Police guard there is exhibited an increase on the capitation cost. This is always a natural consequence of reduction in the number of prisoners, but it has also been partly brought about by the adoption of a uniform system of charging against taluk lock-ups a fixed cost for Police guards. The expen-

diture is actually met from the Police grant, but the charge is shewn in the jail statements and is proportioned according to the distance of each lock-up from the District Jail.

8. This plan has been adopted by the Inspector General of Prisons in consequence of the remarks made in the Review of his Report for 1878, but it does not appear to be a satisfactory solution of the question of how to shew correctly the actual cost of the lock-ups, the charges in which shew a very great diversity; thus in the Mysore District with a daily average of 16 prisoners the annual cost per head is Rs. 345, and in Shimoga with a daily average of 15 the cost is Rs. 55 per head.

9. Convicts were employed on manufactures, gardening and public works. The profits resulting from their labour amounted to Rs. 11,904, being about Rs. 4 per head of convicts sentenced to labor. In the Bangalore, Mysore and Shimoga Jails respectively, the profits amounted to Rs. 11,175, Rs. 3,263 and Rs. 8,472, which for those three jails alone aggregate Rs. 22,910; in the other jails therefore it appears that the hard-labor convicts labored at a loss; but excellent work has been done by the prisoners in the Kukarhalli temporary jail. They were employed on the water works and on building a new Government distillery and they earned Rs. 23,717, the total cost of the jail being Rs. 38,396.

10. In point of the health of the prisoners the year, as was anticipated, shews the most marked improvement. The death rate per cent on the average strength was 4·7 in place of 27 in 1878, the total number of deaths was 153 against 1,443 and the daily average sick was 133·7 instead of 534·6. The decrease in mortality was universal and has been most remarkable in those jails where it was highest during the famine years, thus for instance there were but two deaths in the Chitaldroog District Jail, whereas in 1878 there were 180. It is in the Shimoga Jail alone that the percentage of deaths has risen, there having occurred in the district jail there 12·67 per cent of the average daily strength, as compared with 10·65 per cent in 1878. More than three-fourths it is reported died within the first five months, and 40 of the deaths occurred from dysentery and diarrhœa. It is peculiar that these diseases which were so prevalent in all the Province, but which have so generally abated, should have continued thus in the Shimoga Jail, a jail where in the worst days of 1877 and 1878 the mortality was never so high as in any of the others.

Letter No. 20, dated 18th May 1880, from the District Magistrate of Shimoga, soliciting orders for the prohibition of the barbarous rite of "*Sidi*" which is reported to be performed in some places in the interior.

No. 2562—J. 49, DATED BANGALORE, 14TH JULY 1880.

ORDER.—The Chief Commissioner is advised that the District Magistrate has the power to prohibit the rite of "Sidi" and other similar observances by the issue of an order under Section 518 of the Criminal Procedure Code as dangerous to human life, health or safety.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Judicial),—dated 22nd July 1880.

From Mr. Nepean Smith, Public Prosecutor, Nundydroog Division, To the Secretary to the Chief Commissioner of Mysore, General Department, dated Bangalore, 23rd June 1880.

I have the honor to bring to your notice that on Monday last in a judgment in a criminal case, the Amildar of Anekal *versus* Timmaiya and 13 others, my right to conduct the defence in a purely magisterial case and not within the cognizance of the Sessions Court has been brought into question by Mr. Syed Nasruddin, the 1st Class Magistrate. The prosecutor was the Amildar Abdul Aziz and the case was brought under Sections 145 and 188, I. P. Code, and when I was retained the summons did not shew that this was so as it was headed Chikanna and 13 others *versus* Timmaiya and 13 others, and it only transpired at the hearing that the complainant was the Amildar, the naming of the others being ascribed to a clerical error. My services were not applied for, but on my appearing as simply Advocate for the defence it was objected to.

Up to the present time no such objection has been raised in any court, although I have continued to practise in magisterial cases on many occasions. As a matter of fact, the cases wherever the services of the Government Prosecutor are applied hardly average one per mensem in original prosecutions, so that if the present objection be admitted, I should be shut out of all private criminal practice, which is considerably more remunerative than civil, and on my appointment no such prohibition was made.

In the case above quoted, the parties 14 in number were fined each Rs. 25, so that no appeal would lay, yet Mr. Syed Nasruddin allowed the plea that I should be debarred from all private criminal practice, as it is possible that though not employed by Government in the original criminal court, my services might be required in appeal. In the Judicial Commissioner's Court I have more than once appeared for private individuals in criminal appeals.

To bar a Public Prosecutor on a salary of Rs. 150 only and where sometimes the average from each case at Sessions is not Rs. 10 per case as happened in the present month when 16 cases were tried, of which five were defended by counsel, would deprive him of a great part of his income, as the average rate of fees in magisterial cases is from 50 to 100 Rs. and more.

I may here mention that as a matter of fact I never take up a defence, until I ascertain that Government do not move in the matter, and I would beg to observe that in any such exceptional cases as that mentioned by Mr. Syed Nasruddin it would be open to the court whose conviction was to be sustained to appoint any other Advocate to appear on their behalf, a power which has already been declared to be vested in a District Magistrate.

It is quite inexplicable to me why in the present case my appearance was objected to, as, if I had not appeared, some other Advocate probably more able than myself would have been employed.

It is perhaps allowed me to say that in the case in question I had in the course of my duty to protest against several irregularities, which will be brought to the notice of the Judicial Commissioner.

I would respectfully beg that the present question may be laid before the Chief Commissioner for his consideration.

From the Secretary to the Chief Commissioner of Mysore, General Department, To the Judicial Commissioner in Mysore, No. 2240—G. 608, dated Bangalore, 30th June 1880.

I am directed by the Chief Commissioner to forward copy of a letter dated 23rd June 1880 from the Public Prosecutor, Nundydroog, and, with reference to Mr. Nepean Smith's contention that he is and should be permitted to appear for the defence in criminal cases, I am to inquire what has been the practice in your court and whether any inconvenience practically arises from Mr. Nepean Smith engaging in private criminal practice.

From the Judicial Commissioner of Mysore, To the Secretary to the Chief Commissioner of Mysore, General Department, No. 777—75, dated Bangalore, 16th July 1880.

In reply to your No. 2240—608 of the 30th ultimo, I have the honor to state that Mr Nepean Smith, Public Prosecutor, has appeared occasionally in my court in behalf of the appellant in criminal cases, and that I do not think any inconvenience would practically arise from him engaging in private criminal practice, provided that he has not been instructed to appear on behalf of the prosecution.

2. He could not of course appear for the defence in any case in which he is retained by the conditions of his appointment on behalf of the Government, *e. g.*, in prosecutions before the Court of Sessions and in appeals to this Court from the conviction of the Court of Session.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Judicial),—dated 29th July 1880.

From Mr. E. R. Subbarayer, Public Prosecutor, Nagar Division, To the Secretary to the Chief Commissioner of Mysore, General Department, dated Shimoga, 11th July 1880.

I beg to lay the following for the favorable consideration of the Chief Commissioner trusting that sanction may be graciously accorded to the prayer therein made.

1. In my letter No. 3, dated the 8th October 1879, I solicited Mr. Sandford, the Judicial Commissioner, to permit me to appear in criminal cases when my services were not required by the Government, and I was led to make such an application on the information that the Judicial Commissioner had no objections when the Public Prosecutor was not retained by Government in any criminal case.

2. I was favored by the Judicial Commissioner with a reply, a true copy of which I beg herein to enclose, that abstention from private practice was not, as far as he was aware, a condition of my appointment, but that I should apply to the Government for instructions.

3. I beg therefore the Chief Commissioner will be graciously pleased to grant me permission to appear in criminal cases when I am not required to protect Government cases.

No. 2895-2909—J. 51, DATED BANGALORE, 22ND JULY 1880.

ORDER.—It appears to the Chief Commissioner that Public Prosecutors in Mysore are not debarred by the terms of their agreement, from taking private criminal practice except in the classes of cases specified by the Judicial Commissioner in his letter of the 16th July 1880, where the conditions of their appointment require them to appear on behalf of Government, namely ; in prosecutions before the Courts of Sessions and in appeals to the Judicial Commissioner from convictions by Sessions Courts ; and of course in any other case where he has been instructed to appear on behalf of the prosecution or consulted by Government.

Letter No. 127, dated 22nd July 1880, from the Deputy Commissioner, Túmkúr District, recommending, under Section 30 of the Arms Act, the appointment of some officers to be present at any search of arms under the Act.

No. 3115-3124—J. 54, DATED BANGALORE, 29TH JULY 1880.

ORDER.—The Arms Act having been in force for more than three months, the possession, without a license, of fire-arms, ammunition or military stores is punishable under Section 19 (f) of the Act, and if the owner does not obtain a license before the 6th January 1881, when the Act shall have been in force for one year, the fire-arms, &c., are forfeited to Government. Section 30 requires that when proceedings have been instituted against any person under the above quoted section, and a search has to be made under the Criminal Procedure Code, such search shall be made in the presence of an officer specially appointed by name or in virtue of his office. The Chief Commissioner is therefore pleased to direct that in all such cases the search shall be made in the presence of the Deputy Commissioner of the District, an Assistant Commissioner or the Amildar of the Taluk.

2. The provisions of Section 14 apply only, it must be noted, to the possession of cannon or fire-arms. The possession of other arms is only punishable in places to which Section 15 has been extended, and that section has not been extended to any place in Mysore.

Letter No. 356, dated 8th July 1880, from the Inspector General of Prisons in Mysore bringing to notice the escape of certain convicts from the different Jails in the Province, together with a descriptive statement of such escaped convicts.

No. 344—POLICE 8, DATED BANGALORE, 31ST JULY 1880.

ORDER.—Attention is drawn to the accompanying list of convicts escaped from Jails, and Deputy Commissioners are directed to circulate it to all Police stations, and to enjoin the use of the utmost vigilance in endeavouring to re-capture the escaped convicts whose numbers are unduly great.

2. Many of them, including all who are not natives of Mysore, have in all probability left the Province, but, recollecting the strong tendency of the native of this country to return to the village where he was born, and where his relations live, it is incredible to the Chief Commissioner that many re-captures could not be effected if intelligent measures were adopted for obtaining information at the convict's native village whenever he might happen to re-visit it.

3. Mr. Gordon fears that the circumstances of each case too easily slip into oblivion with the change of officials and in the midst of routine of every day work; and he therefore directs that strenuous efforts be used to re-capture such convicts.

No. 2692-2702—Finl. 385, DATED BANGALORE, 17TH JULY 1880.

ORDER.—Anche houses are exempted from Municipal house-tax as Government Offices, and as Anche Mutsaddis are allowed to reside in them in the interests of the public service, the Chief Commissioner is of opinion that neither the Mutsaddi nor, ordinarily, the Government should pay the tax thereon. In special cases, however, where the claim for the tax in regard to any particular Anche house, seems good, as a residence, the Government will pay for the Mutsaddi.

The Annual Report on Vaccination in Mysore for the year 1879—80.

No. 2709—GENL. 724, DATED BANGALORE, 16TH JULY 1880.

REVIEW BY THE CHIEF COMMISSIONER.—The work of the Vaccination Department was carried on by 84 Taluk Vaccinators who are paid by results with maxima of Rs. 15, 12 or 10 according to the class; by 22 medical subordinates attached to Hospitals and Dispensaries, and by 6 paid Vaccinators in the Bangalore Municipality.

2. The Taluk Vaccinators operated on 88,785 cases, being 1,188 less than in 1878—79, at a cost of Rs. 10,065—9—5, which gives an average cost of 2 annas 3¼ pie (within a fraction of a pie of the average of the previous year) for each of the 70,634 successful cases. The medical subordinates in Dispensaries vaccinated 935 cases, of which 731 were successful, and the Municipal Vaccinators vaccinated 2,430 cases, of which 2,099 were successful.

3. It appears therefore that the percentage of successful cases in Bangalore amounted to 94·6; while of the operations conducted by Taluk Vaccinators it was only 79·5. As cases in which the result is unknown swell the numbers of unsuccessful cases, the difference may be due to the greater ease with which in a Municipality persons operated on can be found and the results ascertained and noted, but it should be observed at the same time that of 10,658 children inspected by medical subordinates 4,510 or 42·3 bore marks of vaccination, if then their inspection was confined to children whose vaccination was reported the result does not equal the reported proportion of successful operations. If, however, the children were taken hap-hazard, it is satisfactory to find so large a proportion of the population protected from small-pox.

4. More attention has been given both by Medical and Revenue Officers to inspection than before, and the number of dispensary operations has risen. These are good signs and much benefit may arise from the institution of a healthy competition between the paid vaccinators and medical subordinates.

Secretary.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Military,)—dated 2nd July 1880.

READ—

Annual Report by Lieutenant-Colonel R. C. Stewart, Military Assistant, on the Mysore Local Force, for 1879—80.

No. 2250—MIL. 17, DATED BANGALORE, 2ND JULY 1880.

REVIEW BY THE CHIEF COMMISSIONER.—On the first day of the past year the Barr Infantry was reduced by the disbandment of the 4th Regiment. The Local Force now consists of three Regiments of Siledars with a total strength of all ranks of 1,189 and three Regiments of Barr Infantry with a total strength of 1,949.

2. No reliefs of Cavalry were carried out during the year. The 1st Regiment is quartered at Bangalore, the 2nd at Mysore, with detached Risalas at Túmkúr and Kolar; it also gives one Risala on detachment as Body guard to His Highness the Maha Raja. The 3rd Regiment is quartered at Shimoga with detached Risalas at Chitaldroog, Chikmagalur and Hassan. In the Túmkúr District three new out-posts were added for patrol duty.

3. The 1st Infantry Regiment is quartered at Bangalore giving a detachment of 3 companies to the Kolar District. The 2nd Regiment is at Shimoga, and 4 companies are on detachment, two in the Túmkúr District and two in Chitaldroog. The 3rd Regiment is quartered at Mysore and has two detachments, 2 companies in the Hassan District, and one company in the Kadur District. No reliefs of regiments were made, but a few minor changes of station occurred. Owing to the withdrawal of regular troops from Bangalore the Barr Infantry furnished a guard to the Remount Depôt at Oosoor during the month of October.

4. The issue of clothing to the Siledars which had been so long delayed, owing to non-compliance by the Secretary of State with the indent, was completed, and Colonel Stewart is to be congratulated on the improved, smart and soldierly appearance of the men. All the regiments moreover have now been equipped with the new pattern sword and sword belt, and the men of the 1st Regiment are being furnished with saddles of English Cavalry pattern. The mounting of the ranks has also engaged the Military Assistant's constant attention and with marked improvement. There were 134 horses short of the complement to supply which 80 Arabs and Persians were bought in Bombay and 20 in Madras or locally.

5. From the stud farm at Kunigal too, 28 foals were passed to the ranks. The season was very favorable for the farm and grain was cheap. Two new stallions, one of them a very high caste Arab, were purchased, the number now being 16 or 4 under full complement; 55 foals were dropped during the year of which 9 died; the number at the farm at the close of the year including those born in the year was 126.

6. The Chanda Fund from which the men pay for their horses opened with a balance of Rs 49,309 to which were added receipts amounting to Rs. 90,095 bringing the total to Rs. 1,39,404. The expenditure was Rs. 1,02,700 and the closing balance Rs. 36,704.

7. The other funds connected with the Siledars are Stable Fund and Stallion Fund. The former opened with a balance of Rs. 7,388 and closed with Rs. 6,734; the latter opened with a balance of Rs. 4,729 and closed with Rs. 5,981.

8. In the Barr Infantry there were 87 supernumeraries at the commencement of the year, men who had not been disposed of on the disbandment of the 4th Regiment; the Military Assistant's report shews the manner in which all these were discharged, transferred or absorbed with the exception of 7 rank and file who remained

supernumerary; and they it is reported have since been discharged on gratuity. It is a matter of satisfaction to learn that Colonel Stewart was able to re-entertain 58 men who had been discharged on the disbandment of the 4th Regiment and 6 who had been transferred to the Police.

9. Finally Colonel Stewart records that the reduction in his Office establishment has not injured its efficiency, a result which Mr. Gordon is assured is in great measure due to the care with which Colonel Stewart effected the change and the vigilance of the control exercised on the Office.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 6th July 1880.

Letter from the Deputy Commissioner of the Bangalore District, No. 150 of the 7th June 1880.

No. 1981-90—R. 370, DATED BANGALORE, 6TH JULY 1880.

ORDER THEREON.—Section XI of the Revised Survey Rules defining the manner of disposing of recognized shares of fields which may be relinquished or abandoned can only apply to such shares upon which there are no claims either of the original holders or of the Government on account of arrears of revenue. The shares are in such cases to be first offered to the remaining occupant of the field who is responsible for taking them up eventually. But this does not require that either the rights of the original holders on recognized shares, or of the Government to the arrears of revenue due on them should be sacrificed, if the shares have a saleable value and can be sold by public auction. If, failing such sale, the remaining occupant is compelled to take up the shares under Rule XI, he will not be required to pay the arrears due by the former holders.

Letter from the Survey and Settlement Commissioner of Mysore, No. 133 of the 9th February 1880.

Letter from the Deputy Commissioner of Shimoga, No. 152 of the 22nd June 1880.

No. 1991-9—R. 371, DATED BANGALORE, 6TH JULY 1880.

ORDER THEREON.—Section XII of Act I of 1865, the provisions of which are extended by Section 46 to the District Revenue Officers after the introduction of the Survey settlement, authorizes the recovery from the occupants of lands of the cost of repairing the boundary marks which may be neglected by them. The Chief Commissioner concurs in the opinion of the Survey Commissioner that this is sufficient, and he directs that the orders of 1868, authorizing Amildars summarily to levy fines in such cases, be cancelled.

2. Wilful injuries to boundary marks which are punishable in Bombay under Section 5 of Act III of 1846 may be disposed of here under the provisions made in the Indian Penal Code in regard to mischief.

3. The question of the revision of the Survey Rules with reference to those in force in Bombay to which the Survey Commissioner gives preference, may hereafter be taken into consideration.

READ—

Letter from the Deputy Commissioner of the Shimoga District, No. 75 of the 13th May 1880, soliciting instructions as to the amount of stamp duty leviable on a deed of sale conveying several articles for distinct considerations.

No. 2076-85—REV. 383, DATED BANGALORE, 10TH JULY 1880.

ORDER THEREON.—Section 7 of the present Stamp Act I of 1879, which is very differently worded from Section 14 of the old Act, seems to the Chief Commissioner to be sufficiently explicit. An instrument conveying by sale several articles can be subjected to a separate charge of stamp duty on the value of each of the articles, only if the sale of each such article formed a distinct and separate transaction so as to constitute a "distinct matter" under the Act. But the sale of several articles in a single transaction or engagement, *i. e.*, by a single sale, though the price of each article may be separately specified in the instrument, cannot be regarded as comprising several distinct matters, and must therefore be charged with a stamp duty on the aggregate amount of the sale, such sale constituting but a single cause of action.

Letter from the Deputy Commissioner of the Shimoga District, No. 328, dated 15th March 1880, submitting for orders under Section 45 of the Stamp Act I of 1879, two unstamped documents in which the value of the property involved is not specified and enquiring whether the procedure adopted by him of ascertaining the same through the Amildar is correct.

No. 2092-9—R. 387, DATED BANGALORE, 10TH JULY 1880.

ORDER THEREON.—Section 27 of the Indian Stamp Act I of 1879 requires that all facts and circumstances necessary to determine the amount of the stamp duty leviable should be fully and truly set forth. Failure to comply with this provision, if resulting from intent to defraud the Government of any duty, will be punishable under Section 63 of the Act; but such failure often proceeds from ignorance especially in the case of partition deeds like the one under notice, relating to sundry properties of small value, in which parties may not see occasion to fix a money value on the property. In such cases, an affidavit or other evidence may be taken in the manner provided in Section 30 in regard to the value of the property, and the stamp duty levied with reference to it and noted on the document. Until the necessary information is thus furnished by the parties concerned, the document will remain impounded.

Letter from the Deputy Commissioner of the Shimoga District, No. 230 of the 29th January 1880, submitting for orders the case of a Promissory Note for Rs. 114 which has been written on a plain paper with an adhesive label of one anna affixed, but which ought to have been executed on an impressed stamp paper of 2 annas.

No. 2067-75—R. 382, DATED BANGALORE, 10TH JULY 1880.

ORDER THEREON.—It must be noted that there can be no prosecution under Section 61 of the new Stamp Act for the execution of the Promissory Note without sufficient stamp which took place before the date of the Act, the old Stamp Act of 1869 being no longer in force to sustain any prosecution under it. A prosecution can be instituted for any negotiation of the Promissory Note after the passing of the new Stamp Act, but it is left to the Deputy Commissioner under Section 69 to sanction or not such prosecution. Any compounding of the offence under the said section cannot give validity to the document as the same cannot be admitted in evidence and must therefore remain impounded.

Letter No. 79 of the 8th June 1880 from the Deputy Commissioner of Túmkúr, soliciting orders in regard to the stamp duty leviable on a certificate of sale granted by the Túmkúr Munsiff, in which three properties are conveyed for three different considerations.

No. 2155-63—R. 395, DATED BANGALORE, 10TH JULY 1880.

ORDER THEREON.—The question is not whether there were different considerations for the three properties sold by the Munsiff and for which he issued a single sale certificate, but rather whether they were separate sales ; in which case they must be regarded as constituting distinct matters under Section 7 of the new Stamp Act, and charged with separate stamp duty on the value of each sale. The transactions need not necessarily consist of different kinds of contract in order to constitute distinct matters.

Letter from the Deputy Commissioner of the Túmkúr District, No. 45 of the 11th May 1880, requesting instructions as to whether under the new Stamp Act I of 1879, any stamp is required for acceptance of transfer of occupancy of lands.

No. 2122-30—R. 391, DATED BANGALORE, 12TH JULY 1880.

ORDER THEREON.—Acceptance of transfers of occupancy of lands in settled taluks in *Form No.* II prescribed in the Survey Manual, for which a stamp of 8 annas was required to be levied under Article 11 of Schedule II of the old Stamp Act XVIII of 1869, will hereafter be exempt from the stamp duty under Article 2, Clause (*e*) of Schedule II of the new Stamp Act I of 1879. This exemption, however, is limited by the wording of the Act to settled taluks coming under Bombay Act I of 1865. In the unsurveyed taluks, documents of the above description being of the nature of agreements to pay the arrears of revenue due on the lands acquired by the transfer, must continue subject to the stamp duty of 8 annas under Article 5 (*c*) of the new Stamp Act, unless the duty is hereafter remitted by the Government of India under Section 8 of the Act. These documents will not strictly fall under the head of counterparts of leases exempted from the Stamp Act, nor under Clause 9, Section 19, of the Court Fees' Act, or Article 1 (*a*) of Schedule II of the said Act.

Letter No. 134 of the 7th June 1880, from the Deputy Commissioner, Shimoga District, recommending that Taluk Sheristadars may be authorized to conduct sales of immovable property in satisfaction of arrears of Government revenue.

No. 2184-92—R. 397, DATED BANGALORE, 13TH JULY 1880.

ORDER THEREON.—The Chief Commissioner sees no objection to the Taluk Sheristadars and even Shekdars being entrusted with the sale of lands and other immovable property when of small value, on the responsibility of the Amildar, who, however, should satisfy himself in each case that the sale has been properly conducted and that due notice has been given to the owners of the property, and their attendance secured as far as practicable. Where the value of the property is large, and generally whenever it can be done without inconvenience, the sale should be conducted by the Amildar or the Taluk Sheristadar.

2. There is no objection to placing the Taluk Head Gumasta in charge of the Treasury in rare cases of urgency, when care should be taken that only a small amount of money is left in his hands in the current boxes. The occasion for this however, should be very rare, as it is obviously desirable on every account that either the Amildar or the Sheristadar should as a rule be present at the Taluk Head-quarters.

Letter from the Deputy Commissioner of the Shimoga District, No. 165 of the 1st July 1880, recommending the abolition of the system of Village Officials watching the crops on lands belonging to poor ryots, to guard against their default to pay the Government revenue.

No. 2202-9—R. 398, DATED BANGALORE, 13TH JULY 1880.

ORDER THEREON.—The old practice of keeping surveillance over the crops, which was necessary when lands had no value, can no longer be required under the present improved condition of the country. It is moreover illegal, and must therefore be prohibited. There ought to be no difficulty in collecting the revenue if the payment of the khists is regularly enforced.

No. 2462-9—P. 245, DATED BANGALORE, 24TH JULY 1880.

ORDER THEREON.—No exemption should be allowed in regard to house tax in Municipal towns, but the loom and shop taxes not having yet been brought under revision, any exemption from them hitherto enjoyed may be continued for the present.

Letter No. 255 of the 19th July 1880, from the Deputy Commissioner of the Bangalore District, regarding the retail price of ganga.

No. 2492-9—R. 464, DATED BANGALORE, 27TH JULY 1880.

ORDER THEREON.—The form of the contract bond laid down for the ganja contractor does not, it will be seen, fix the price at which he should sell the article to the licensed retail vendors who are his own nominees. There is no occasion for fixing this price in the ganja, any more than in the toddy, contract, where the licensed retail vendors are the nominees of the contractors, and have therefore no distinct rights requiring protection. The Government are simply called upon to fix the retail price at which the article should be sold to the public in order to protect them from any injury from the monopoly, and this, it will be seen, is fixed at 8 annas per seer both in the form of the Retail License, clause 3, as well as in clause VII, para 3 of Proceedings No. 6908-16—R. 1210, dated 27th March 1880. The retail vendors are therefore wrong in selling the article at 10 instead of 8 annas per seer to the public.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 27th July 1880.

2. The Chief Commissioner, however, notes that the former retail price in Bangalore was 10 annas. Should it appear that the contractor has entered into his engagement under the impression that the retail price is to be 10 annas per seer, and should the Deputy Commissioner be of opinion that the price entered in the Retail License should be altered accordingly in order to prevent loss to the contractor, he is authorized to make the alteration in the Retail Licenses.

3. The Chief Commissioner, in modification of clause VII, para 3 of Proceedings dated 27th March 1880, directs that in future ganja contracts, throughout the Province, the retail price to be entered in the Retail Licenses be fixed at 10 annas per seer, and that the alteration be at once carried out where no objection exists to the same.

2. The estimated receipts from octroi in Davangere and Harihar shew a very large increase. Details of the articles on which the octroi is proposed to be levied and the rate of duty should be furnished. The octroi in the three new Municipalities is confined to betel-leaves, tobacco, cocoanuts and cloth.

3. The receipts from house tax and mohatarfa in Chitaldroog shew a considerable falling off, the reason of which should be explained. No details in regard to the re-adjustment of the house and mohatarfa taxes in the Municipalities called for in Proceedings dated 2nd February 1880, No. 5816-27—Mi. 286, have yet been furnished.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Financial),—dated 16th July 1880.

5. The collection charges in Davangere and Harihar are high. There is no reason why they should not be reduced, as has been done in the larger Municipality of Chitaldroog. In the three newly opened Municipalities, a Mutsaddi on Rs. 6 for collection and a peon on Rs. 4 for conservancy are provided. The former should be dispensed with, providing for the collection through the village officials, as is the case elsewhere.

6. The pay of the Clerk in the District Office, *viz.*, Rs. 30 per month, which is distributed over the three larger Municipalities, is high compared with the other Districts where it had been only Rs. 15, since raised to Rs. 20, in order to provide for the audit of municipal accounts. It should be reduced to the same amount.

7. The rates of hire for conservancy carts seem also high for such out-stations, where the carts which are not likely to be engaged the whole day, might be procurable on cheaper terms.

1. Construction of drains in Chitaldroog ...	700
2. Do do in Davangere ...	800

Letters Nos. 151 and 150 of the 12th and 14th April 1880, respectively, from the Deputy Accountant General, submitting the Budget Estimates of the several Municipalities in the Kadur District for the official year 1880—81.

No. 2282-90—Ml. 103, DATED BANGALORE, 16TH JULY 1880.

ORDER THEREON.—There are six Municipalities in this District. The Municipality at Chikmagalur is on the model of a District Head-quarter Municipality and further maintains its schools in addition to the Police. The others are minor Municipalities maintained from a moiety of the house and mohatarfa taxes and of the octroi on betel-leaves, tobacco and cocoanuts. Cloth is additionally taxed only in Tarikere. The details of the estimated receipts of the several Municipalities are given below :—

2. No details of the revision of the house and mohatarfa taxes having been given, there is no means of judging of its effects. There is generally a loss in the revenue of the house tax hitherto levied by the Municipalities which, however, is made good by the moiety of the other items of the mohatarfa newly conceded to them. The collections from octroi should, in future, be shewn separately for each article, with the rate of tax levied.

3. The proposed levy of the octroi in Chikmagalur on metals which is not expected to yield much, may, for the present, be deferred as in other Municipalities.

4. The Deputy Commissioner is requested to give the details of the large amount of Rs. 2,400 entered under "Miscellaneous Receipts" in Birur Municipality.

5. The estimated receipts of Rs. 1,000 from the pound at Chikmagalur is also very large. Some details in regard to the working of this pound will be useful.

6. The following statement exhibits the details of the expenditure proposed:—

7. In the minor Municipalities a Mutsaddi for collection of the house tax and Kolkars for the octroi are proposed, which makes the collection charges very heavy in comparison with the small amount of receipts in these Municipalities. The expediency of employing such a separate establishment of low-paid servants is questionable. They should be dispensed with and arrangements made as elsewhere for the collection through the village officials with a percentage allowance to them for the octroi alone.

8. The large establishment provided for the collection in the Chikmagalur Municipality may be retained for the present. But the Deputy Mutsaddi may well be dispensed with and some reduction made in the rate of pay of the others, as also in the amount of contingencies. The large amount of octroi realized in this Municipality, especially on such items as cloth, falls, it is believed, on the consumption outside the Municipal limits and the receipts will be diminished when better arrangements are hereafter made. *Vide* para 6 of the Proceedings No. 1622-30—Ml. 71 of the 19th June 1880.

9. With regard to the Head Office charges it must be observed that the establishments in the Chief Commissioner's and Deputy Accountant General's Offices are charged to District Head-quarter Municipalities alone, the accounts of which will continue to be audited in the Central Office. The District Office establishment is alone charged to the Municipalities.

10. The proposal to employ a Surveyor on Rs. 35 with a horse allowance of Rs. 7 in the District Office for all the Municipalities cannot be sanctioned, as such an officer can be of very little use, except to the Head-quarter Municipality. For the latter, a man capable of superintending the Municipal works as well as the conservancy ought to be secured for the monthly salary of Rs. 25 already provided under conservancy. The pay of the District Municipal Clerk may be raised to Rs. 20 as in other Districts to secure a competent Clerk, capable also of auditing the accounts of the minor Municipalities. The provision under "Head Office" has been altered accordingly and distributed ratably on the several Municipalities.

11. The rate of hire for the conservancy carts, *viz.*, Rs. 20 at Chikmagalur and Rs. 17 at Tarikere, may admit of some reduction, as also the rate of pay of the sweepers and scavengers. Scavengers for the latrines are proposed to be procured from Bangalore on the monthly pay of Rs. 10 each. The Municipal Board should take into consideration the possibility of making any cheaper local arrangements in this matter.

12. Some details should be furnished in regard to the present condition of, and arrangements proposed for, the "Mayo Park" for which a large provision of Rs. 240 is made. The expenditure of Municipal funds on such objects should be moderate. There are, besides, 6 coolies employed to water the belt of trees planted round the town and Rs. 200 are further provided for rearing trees. Some information should also be furnished in regard to the work done by the coolies and the number and present condition of the trees.

13. The principal items of the outlay on public works, original and repairs, are noted in the margin. They are sanctioned subject to estimates and notifications being submitted in the usual course. The provision for "Reserve" has been reduced to 5 per cent.

No. 2193-201—MIS. 320, DATED BANGALORE, 13TH JULY 1880.

ORDER THEREON.—In the above, the Deputy Commissioner suggests that the numbering of houses for the Census may be made with tar, and enquires in what manner the cost is to be met. The suggestion is approved. The cost in Municipal towns should be defrayed from Municipal Funds, and in the villages from Local Funds. The expenditure should be managed economically.

Letter from the Offg. Deputy Commissioner of the Kadur District, No. 190 of the 19th July 1880, enquiring whether the orders of 1871 and 1875 relative to the removal of stones for Government works from ruined forts have reference only to a few important forts or to all forts generally.

No. 2484-91—MIS. 353, DATED BANGALORE, 27TH JULY 1880.

ORDER THEREON.—The instructions issued in Proceedings No. 3276—138, dated 19th July 1875, are sufficiently explicit. The District Officers being in charge of all forts and similar buildings in their Districts, no stones from them should be removed except with their permission. Such permission can be granted by the Deputy Commissioners in the case of dilapidated buildings, the removal of which is desirable; but where the buildings are more or less in a state of preservation, or possess historical interest, and generally in all cases of doubt, the orders of the Chief Commissioner should be obtained. Municipal bodies and even the proprietors of inam villages can, as a rule, have no right in these buildings which are public property, though situated within their limits, but they should be consulted where the removal of the stones is likely to affect them injuriously.

Proceedings of the Chief Commissioner of Coorg, General Department, 7th July 1880.

READ—

The Annual Medical and Sanitary Report of Coorg for 1879 by the Surgeon to the Mysore Commission.

No. 418—G. 46, DATED BANGALORE, 7TH JULY 1880.

REVIEW BY THE CHIEF COMMISSIONER.—The past year contrasts most favorably with its predecessors, the rain-fall of 141 inches was abnormally heavy, the mean temperature of 64° was very moderate, food grains and all provisions were comparatively cheap and the season, unmarked by any epidemics, was generally salubrious.

2. Mercara was garrisoned by a wing of the 40th Madras Native Infantry for the last nine months of the year, and it is for that wing during those months that health statistics are given in the report. In that time the number of admissions to Hospital per mille of strength was very great, as much as 1873, much greater than the number of the 28th Native Infantry for the whole of 1878 ; but the sickness however prevalent appears to have been light, for there was only one death in the Regiment. The principal diseases were intermittent fever and bowel-complaint and the causes are said to be the cold, wet and malarious climate heightened by an unusually early south-west monsoon ; defective hutting, unsuitable clothing, impure water and severe duty. The first cause is beyond remedy, but of the others the Chief Commissioner has not been informed of any means taken for their removal, except the last. It is hoped that the duty of the garrison will shortly be considerably reduced. The unsuitability of the climate of Mercara for people of the plains is displayed with very grim distinctness in the death rate among families and followers, which in 1878 and 1879 reached 97·26 and 60·35 per mille respectively.

3. In the health statistics of the jail population with a slightly smaller average strength the percentage of daily sick is almost the same as in 187-, but the percentage of deaths has decreased from 25·20 to 10·88. The causes of sickness and mortality are reported to have been purely constitutional. In the Mercara Jail part of the quadrangle was dismantled in order to rebuild it, and this is reported to have caused overcrowding. The new buildings now being completed overcrowding will be avoided in future.

4. Among the general population the vital statistics as registered are so inaccurate as to be useless for the purpose of drawing conclusions of any value. New rules for registration of births and deaths in rural circles have been introduced, but they do not affect the returns of the past year. Births have been returned at 1,133 or 6·73 per mille of the population and deaths at 3,700 or 21·98 per mille. It is evident that these figures are below the truth and the inaccuracy of the returns is further exemplified by the preponderance of registrations of births and deaths of males over females.

5. Still there can be no doubt that the mortality of 1879 was much below that of 1878. There were no epidemics, no deaths at all from cholera, and only 71 from small-pox : the season though trying by reason of cold and wet was on the whole healthy and there were no more of those emaciated wandering houseless paupers who had in the two previous years swarmed into Coorg from Mysore and there largely swelled the death rate.

Secretary.

Proceedings of the Chief Commissioner of Coorg, General Department,
21st July 1880.

READ—

The Annual Report on Vaccination in Coorg for the year 1879.

No. 448—G. 54, DATED BANGALORE, 12TH JULY 1880.

ORDER.—The increased vaccination establishment which was entertained during 1878—79 having been paid throughout the whole of the year 1879—80, the cost to Government has again increased to Rs. 1,196, but the good results effected are apparent in the increased number of vaccinations performed and the better average of successful cases attained. Thus the four Vaccinators and the Inspector together vaccinated 3,075 persons, of whom 84·8 per cent were successful. In 1878—79, the numbers were 2,509 and 77·91 per cent. The average cost of each successful case has however increased from 6 annas 9½ pie to 7 annas 4 pie.

2. In addition to the above the Medical subordinates of the Jail and Hospital at Mercara operated on 241 cases, 145 of which were successful, so that both as to number and success the returns of the past year are the best on record; and vaccination appears at length to be making head in the Province of Coorg.

W. J. CUNINGHAM,
Secretary.

To—The Surgeon, Mysore Commission.

Annual Report by the Inspector General of Registration in Coorg for the year 1879—80.

No. 515 —GENL. 60, DATED BANGALORE, 21ST JULY 1880.

REVIEW BY THE CHIEF COMMISSIONER.—The returns for 1879—80 shew a slight increase in registration in Coorg in which 431 documents relating to immovable property of over Rs. 100 value each, 25 relating to the same class each under 100 rupees value and 59 relating to movable property were registered. In 1878—79 the figures were 419, 25 and 51 respectively.

2. Though the number of documents affecting immovable property which were registered increased, their average value was so much less that the aggregate value of property included in the whole was less than that of 1878—79. On the other hand the average value of property included in each registration affecting movable property increased from Rs. 3,625 to Rs. 7,906. The receipts from fees and expenditure on commission were both higher, in consequence, than they had been in 1878—79.

3. The receipts of the year amounted to Rs. 3,552 and disbursements to Rs. 2,011 leaving a surplus of Rs. 1,541, the percentage of expenditure on receipts being 56·61 In 1878—79, with a revenue of Rs. 3,155 the surplus was Rs. 1,392 and the percentage of expenditure upon income was 55·84.

4. The average time taken in the Registry Offices of North Coorg to complete registration is one week which appears to the Chief Commissioner to be too long.

W. J. CUNINGHAM,
Secretary.
